

# Felipe Cremerius

Frontend Developer

## CONTACT

Buenos Aires, Argentina

1162007718

felipecremerius1@gmail.com

github.com/fcreme

## TOOLS

Git, GitHub, CLI, Neovim, Claude Code, VS Code,

Postman, Bruno, FileZilla

## CURRENT FOCUS

Three.js, frontend performance optimization, testing strategies (Jest/Vitest), developer tooling, automation with n8n, Orange Data Mining.

## PROFILE

Frontend Developer specialized in React and modern web applications. Experience building software from scratch by collaborating with business stakeholders to translate workflows into scalable applications. Strong focus on performance, responsive and pixel-perfect UI.

## EXPERIENCE

### Frontend Developer — Reino Cerámicos (2025–Present)

Development of modular enterprise dashboards and management tools using React with API integrations, state management, and data visualization.

*Internal dashboards used by multiple business areas for daily operations.*

*Backend integration with Node.js (NestJS) services.*

### Freelance Web Developer (2023–2024)

Responsive web interfaces, REST API integrations, Google Sheets automation, and Tienda Nube customization via FTP.

## TECH STACK
