AI & LLM

MCP | Claude Code | LLM Integration | AI Agents | Multi-Provider LLMs | RAG Systems | Prompt Engineering | LangChain | LLM Evaluation | n8n

CORE SKILLS

Python | TypeScript | Node.js | NestJS | React | Next.js | Go | MySQL | REST APIs | Socket.io | Tailwind CSS

TESTING

Playwright | Jest | Vitest | E2E Testing | Regression

TOOLS

Git, GitHub, Neovim, Claude Code, VS Code, Postman, Bruno, Figma, Vercel

CERTIFICATIONS

MCP: Advanced Topics
Anthropic, Feb 2026

Introduction to MCP
Anthropic, Feb 2026

Claude 101
Anthropic, Feb 2026

Claude Code in Action
Anthropic, Jan 2026

EDUCATION

Data Mining
CoderHouse

Diploma in Full Stack Development
UTN (Univ. Tecnologica Nacional)
Mar 2022 - Mar 2023

Bachelor's in Audiovisual Design
Universidad de Palermo
Mar 2019 - Mar 2023

CURRENT FOCUS

> AI agent orchestration
> LLM system design
> RAG pipelines
> Model Context Protocol
> Multi-app automation (n8n)
> Testing & evaluation

LANGUAGES

Spanish (Native)
English (Advanced)

INTERESTS

Algorithmic music (Strudel live coding), Blockchain & DeFi, Creative coding, Open-source

Felipe Cremerius

AI ENGINEER

AI Engineer building LLM-powered applications, agent workflows, and automation systems. Hands-on with MCP, multi-provider LLM integration, and AI evaluation, on a full-stack base of React, TypeScript, and NestJS. Ships end to end, from system design and backend services to the interfaces people use every day.

EXPERIENCE

AI Evaluation & Data Annotation May 2026 - Present
Confidential (NDA)

> Evaluate model-generated pull requests for correctness and code quality
> Grade multi-step reasoning and chain-of-thought against detailed rubrics, at volume
> Write structured justifications supporting each rating decision

Full-Stack / AI Engineer Jul 2025 - Jun 2026
Reino Ceramicos - Buenos Aires, Argentina

> Built a multi-provider AI chatbot from scratch (Anthropic, Gemini) with ReactFlow fallback, tool parameterization, MCP connections, and SAP HANA views
> Added token usage limiting, a bot configuration UI, and an editor for user-built flows
> Implemented agent-based automation pipelines using MCP and Claude Code to orchestrate cross-system workflows between Slack, internal tools, and databases
> Designed AI-driven internal dashboards with LLM-powered data analysis, automated report generation, and workflow suggestions, used daily by multiple business areas
> Built business logic modules comparing operational data against SAP HANA for key metrics
> Built real-time operational monitoring with Socket.io, automated alerting, and fallback mechanisms
> Developed full-stack features: React and Zustand frontend, NestJS services, MySQL data layer

MCP | Claude Code | LLM Integration | Anthropic | Gemini | ReactFlow | SAP HANA | React | TypeScript | NestJS | MySQL | Socket.io

Freelance Full-Stack Developer & AI Automation 2022 - Present
Independent - Buenos Aires, Argentina

> Built automation workflows integrating REST APIs, Google Apps Script, and n8n to orchestrate multi-app business processes across CRMs, email, and internal systems
> Developed responsive React applications with AI-assisted features and LLM-powered content generation for client platforms
> Customized e-commerce platforms via FTP using Liquid templating, with automated inventory and notification systems
> Created corporate training platforms with end-to-end ownership, from architecture and backend design to frontend UX and SEO

n8n | LLM APIs | REST APIs | Google Apps Script | React | Node.js | JavaScript | Liquid

TECH STACK

AI & LLM: MCP, Claude Code, LangChain, multi-provider LLM integration, RAG systems, prompt engineering, LLM evaluation, n8n
Architecture: Agent-based systems, Screaming Architecture, modular architecture, event-driven patterns
Backend & APIs: Python, Node.js (NestJS), REST APIs, MySQL, Socket.io, Google Apps Script
Frontend: React, Next.js, TypeScript, Tailwind CSS, Zustand, TanStack Query, ECharts, Recharts

PROJECTS

Repokit - Repo-Aware Developer Assistant
Go CLI that indexes a codebase, detects its stack and patterns, tracks dependencies, scores project health, and scaffolds components from templates following the project's conventions.
github.com/fcreme/CLI

TerminalStyles - Terminal Theme Switcher
PowerShell Gallery module that themes a terminal live, with instant previews across 15 bundled styles and support for Windows, macOS, and Linux.
github.com/fcreme/TerminalStyles

OnChainApp - ERC20 Token Manager & Crypto Dashboard
Crypto dashboard with React, TypeScript, and wagmi: live market data and on-chain transfers on Sepolia.
github.com/fcreme/OnChainApp

Tide Active - Corporate Training Platform
End-to-end corporate platform with modern design, animations, responsive layout, and integrated content management.
github.com/fcreme/tideactive-personal-brand
